INVENTORY THRESHOLDS:

Inventory levels and reorder points will be established through a separate worksheet. When inventory reaches the reorder point, you will receive an email notifying you of this condition. If response is not received within 72 hours of notice, your fulfillment status for that title will be listed as "Pending " and will no longer be available for 48-hour delivery. If supply diminishes during this status where demand cannot be met, an exact reprint order must be entered. Fulfillment inventory will be replenished within seven working days from receipt of the exact reprint order.
